Final Trim Size/Cut/Routing Path

Open this file in Adobe Illustrator, or place in Adobe Indesign.

Please note: This template file includes features not available on all sign products.

Create you design on a **NEW LAYER**. Do not remove the layer "**GUIDES**" it contains information we need for printing. Contact us with questions 860-647-8367.

IMPORTANT!

- ✓ Convert all fonts to outlines before saving to PDF.
- ✓ Image quality. JPEG/PNG/TIFF min of 125-150 DPI at 100%.
- ✓ Embed all images before saving to PDF.
- ✓ Set Document Color Mode to CMYK.
- ✓ Use Rich Black for text and solid black backgrounds: **C60 M40 Y40 K100**
- ✓ Printing is CMYK only. Convert all PANTONE SPOT COLORS to CMYK.

Cut/Routing Path - The SWATCH labeled "Double" is used for cutting or routing signs to custom shapes and only available on select products.

Spot1 - Only used for products offering UV White Ink

Spot2 - Only used for products offering UV Clear Embellishment
